VANDAL PROOF MARINE KEYBOARD

MAIN FEATURE

- **keyboard can be with NVIS-compliant red adjustable backlighting, while NVIS backlighting makes this keyboard ideal for military, aviation or vehicle applications where night vision goggles are necessary.**
- polymer keys ensure the keyboard's resistance to willful destruction, vandal-proof, against corrosion, weather-proof especially under extreme climatic conditions, water proof/dirt proof, operation under hostile environments.
- Waterproof execution according to degree of protection IP65 from the panel, the keyboard is sealed against the ingress or liquid and dirt, when mounted in a suitable enclosure.
- The keyboards have an excellent tactile feel with full-long travel switches and allow users to achieve fast and accurate data input without any noise. With firm tactile perception for comfortable operation
- Internet friendly key layout, key-tops are laser-etched or high quality ink print in legends and characters for easy readability, long life to prevent lettering rub-off.
- RFI / EMI Protection in accordance with current European and U.S. directives.
- Ease of customizing with multiple languages, to accommodate foreign or custom variants.
- They are provided with PS/2, USB connection output cables that plug directly into the host computer for normal keyboard operations.
- Operational life of more than 10 million cycles per key.
- Resistant to most commonly used cleaning agents.

MECHANICAL DATA

- Key top style: Protuberant rectangular keys.
- Key Size: 11.4mm x 11.4mm for normal keys, 11.4mm x 20.9mm for enter key, 11.4mm x 64.8mm for space bar.
- Key travel: 2.0mm
- Switch life: more than 10 million of operations.
- Lettering: laser-etched or high quality ink print.
- Actuator/keys materials: polymer

ELECTRICAL DATA

- Supply Voltage: +5V DC +/-5%
- Current Rating: appr. 30mA
- EMC Standard: It is compliance with the council EMC directive 89/336/EEC
- EN55022:1988+A1:2000+A2:2003
- EN55024: 1988+A1:2001+A2:2003
- Emission: EN 50081-1
- Immunity: EN 50082-1
- Lifespan>5 years
- Switch Contact Material: Carbon-on-Gold key switch technology PCB.
- Interface: PS2, USB available.
- **OS: Windows95/98/NT/ME/2000/2003/XP/Vista/WIN7, Linux, Unix, Mac OSX**

ENVIRONMENTAL ADAPTABILITY

- Operating temperature:-20°C to +60°C
- Storage temperature: -30°C to +70°C
- Operating RH: 30-90%
- Atmospheric pressure: 60-106Kpa.
- Saline mist: 96 hours, IEC 60512-6
- Damp heat test at + 40°C: 21 days, IEC 60512-6
- Dry heat test at + 85°C: 10 days, IEC 60512-6

RELIABILITY

- **RoHS Compliant, CE and FCC,ESD**
- **Protection Level: IP65(front panel)**
- **Vandal resistant IK10**
- Key Lifespan >10 million actuations
- MTBF >50000H
- MTTR <30min

PRI-KYB-M298-FNK-BLT

DESCRIPTION: 82 keys IP65 dynamic vandal proof industrial & military keyboard with adjustable industrial backlight and industrial PCB with carbon-on-gold key switch technology with key stroke 1.50mm with extremely good tactile feeling for fast and accurate input without any noise, with FN (F1, F2, F3, F4, F5, F6, F7, F8, F9, F10, F11, F12) on the top line for easy operation, with CLEAN key to lock/disable the keyboard for easy cleaning and washing without needing to take out the keyboard from PC, high quality durable black titanium electroplated on the top stainless steel plate (optional), rear panel mounted.

APPLICATION

- keyboard with NVIS-compliant red adjustable backlighting, while NVIS backlighting makes this keyboard ideal for military, aviation or vehicle applications where night vision goggles are necessary.
- This keyboards is constructed to survive in exposed, unsupervised, public environments, and military as Army, Navy, Air force.
- Their responsive key action ensures rapid, reliable and responsive data entry in tough, wet or hostile conditions. A hardened stainless steel front plate and polymer keys ensure the keyboard's resistance to hard use, abuse and vandalism. A water and impact resistant trackball makes this keyboard the complete and ideal solution for PC data entry in menu based 'point & click' application.

- **Number of Keys:** 82
- **G.W.:** 1.20 kgs
- **Dimensions:** 298.0mm x 129.5mm (top panel)

PRI-KYB-M298-MDT-BLT

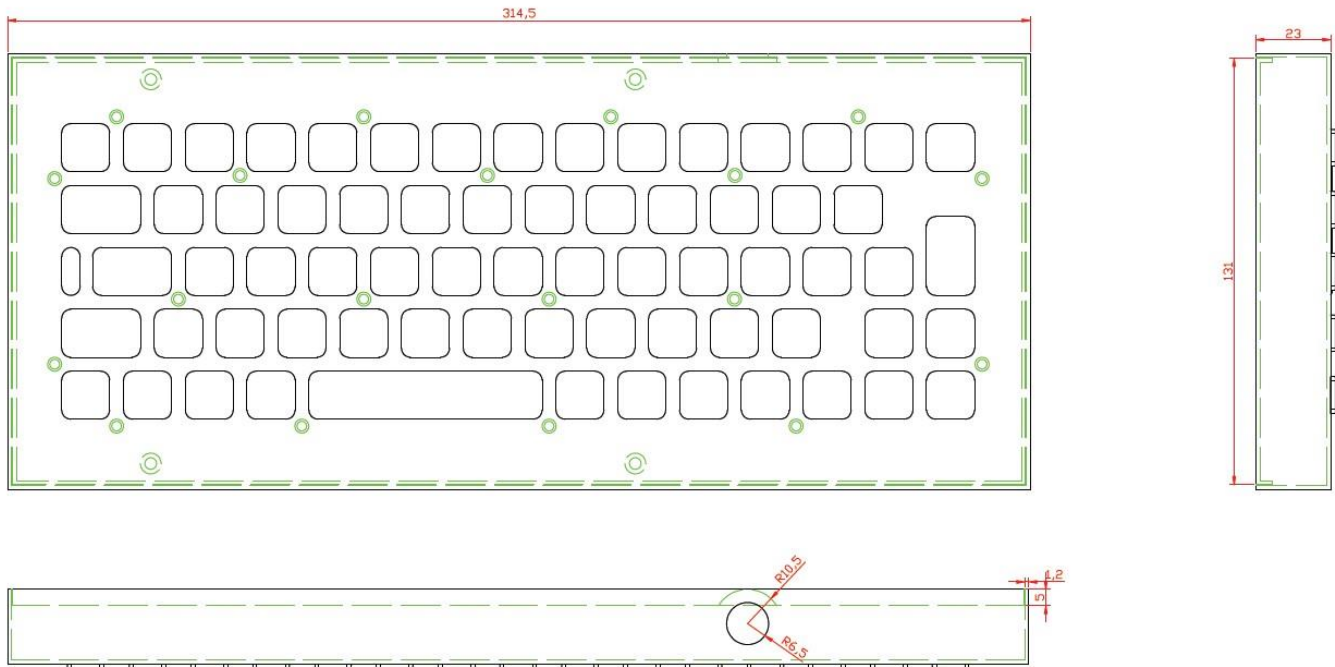

DESCRIPTION: 68 keys IP65 dynamic vandal proof movable stand alone desk top industrial & military keyboard with adjustable industrial backlight, with industrial PCB with carbon-on-gold key switch technology with key stroke 1.50mm with extremely good tactile feeling for fast and accurate input without any noise, high quality durable black titanium electroplated on stainless steel desk top housing (optional).

APPLICATION

- keyboard with NVIS-compliant red adjustable backlighting, while NVIS backlighting makes this keyboard ideal for military, aviation or vehicle applications where night vision goggles are necessary.
- This keyboards is constructed to survive in exposed, unsupervised, public environments, and military as Army, Navy, Air force.
- Their responsive key action ensures rapid, reliable and responsive data entry in tough, wet or hostile conditions. A hardened stainless steel front plate and polymer keys ensure the keyboard's resistance to hard use, abuse and vandalism. PRI-KYB-M380-TBL-BLT

DESCRIPTION: 71 keys IP65 dynamic vandal proof industrial & military keyboard with strong black polymer keys and 38.00mm stainless steel trackball module, with industrial PCB with carbon-on-gold key switch technology with key stroke 1.50mm with extremely good tactile feeling for fast and accurate input without any noise, high quality durable black titanium electroplated on the top stainless steel plate (optional), adjustable industrial backlight included, rear panel mounted. 4 optional trackball modules: IP65 static 38.0mm chameleon trackball module with +400 DPI resolutions, IP65 static 38.0mm mechanical trackball module with +400 DPI resolutions, IP68 dynamic 38.0mm optical trackball module with +800 DPI resolutions, IP68 dynamic 38.0mm laser trackball module with +1200 DPI resolutions.

APPLICATION

- keyboard with NVIS-compliant red adjustable backlight, while NVIS backlight makes this keyboard ideal for military, aviation or vehicle applications where night vision goggles are necessary.
- This keyboard is constructed to survive in exposed, unsupervised, public environments, and military as Army, Navy, Air force.
- Their responsive key action ensures rapid, reliable and responsive data entry in tough, wet or hostile conditions. A hardened stainless steel front plate and polymer keys ensure the keyboard's resistance to hard use, abuse and vandalism. A water and impact resistant trackball makes this keyboard the complete and ideal solution for PC data entry in menu based 'point & click'

PRI-KYB-M460-MTB-NKP-FNK-BTM

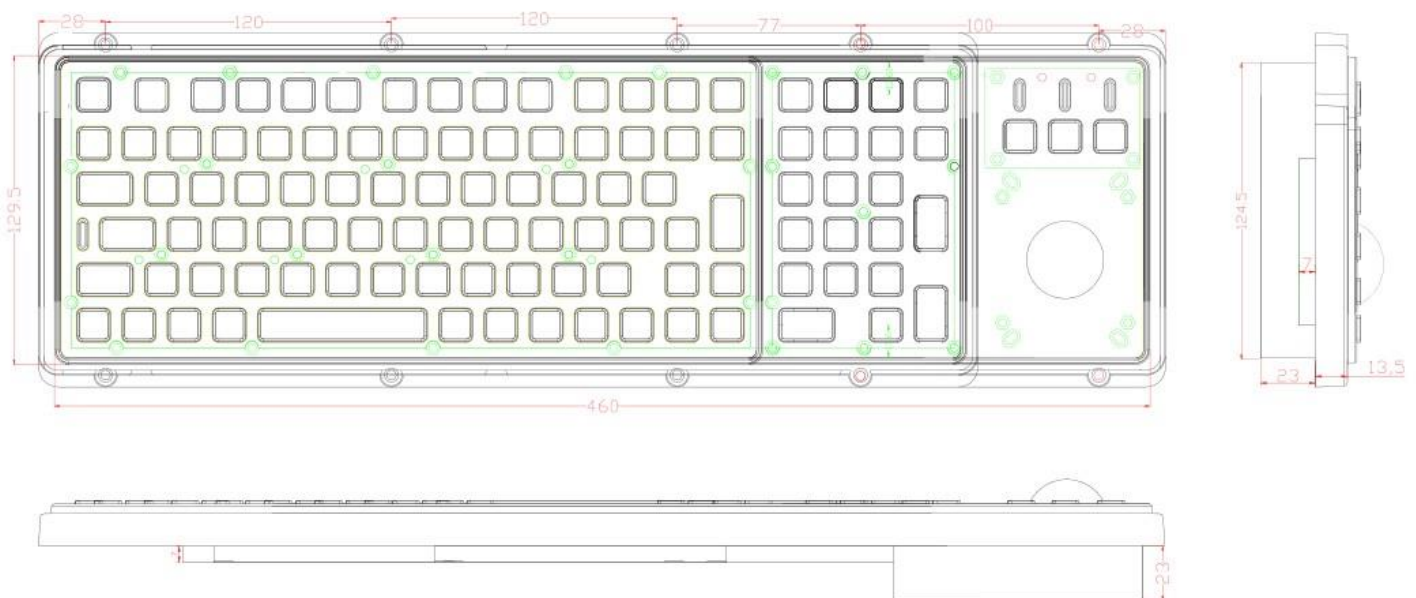

DESCRIPTION: 106 keys IP65 dynamic vandal proof industrial & military keyboard with full keyboard functionalities, integrated 38mm IP65 static black hardened resin mechanical trackball module with 400 DPI resolutions, numeric keypad and function keys (F1, F2...F11, F12) on the top line, with industrial PCB with carbon-on-gold key switch technology with key stroke 1.50mm with extremely good tactile feeling for fast and accurate input without any noise, red clean key lock/disable the keyboard for easy cleaning and washing without needing to take out the keyboard from PC, high quality durable black titanium electroplated on the top stainless steel plate included, rear panel mounting solution.

APPLICATION

This keyboard is constructed to survive in exposed, unsupervised, public environments, and military as Army, Navy, Air force. Their responsive key action ensures rapid, reliable and responsive data entry in tough, wet or hostile conditions. A hardened stainless steel front plate and polymer keys ensure the keyboard's resistance to hard use, abuse and vandalism. A water and impact resistant trackball makes this keyboard the complete and ideal solution for PC data entry in menu based 'point & click' application.

- **Number of Keys:** 106
- **G.W.:** 2.50 kgs
- **Dimensions:** 460.0mm x 129.5mm (top panel)

PRI-KYB-M460-TBL-NKP-FNK-BLT-BTM

DESCRIPTION: 106 keys IP65 dynamic vandal proof industrial & military keyboard with full keyboard functionalities, with adjustable industrial backlight, integrated 38mm trackball module for fast and accurate cursor position, numeric keypad and function keys (F1, F2...F11, F12) on the top line, with industrial PCB with carbon-on-gold key switch technology with key stroke 1.50mm with extremely good tactile feeling for fast and accurate input without any noise, red clean key lock/disable the keyboard for easy cleaning and washing without needing to take out the keyboard from PC, high quality durable black titanium electroplated on the top stainless steel plate included, rear panel mounting solution. 3 optional trackball module :IP65 static 38.0mm mechanical trackball module with +400 DPI resolutions. IP68 dynamic 38.0mm optical trackball module with +800 DPI resolutions. IP68 dynamic 38.0mm laser trackball module with +1200 DPI resolutions.

APPLICATION

- This keyboards is constructed to survive in exposed, unsupervised, public environments, and military as Army, Navy, Air force. Their responsive key action ensures rapid, reliable and responsive data entry in tough, wet or hostile conditions. A hardened stainless steel front plate and polymer keys ensure the keyboard's resistance to hard use, abuse and vandalism. A water and impact resistant trackball makes this keyboard the complete and ideal solution for PC data entry in menu based 'point & click' application.

PRI-KYB-M124-38-CTBM

Description: IP65 static 38.0mm mechanical trackball module with transparent touch ball with adjustable chameleon backlight & 400 DPI resolutions, with 3 industrial backlight mouse buttons designed for right & left clicking and scrolling up and down with ball rolling, high quality durable Electroplate Titanium Black on the top stainless steel plate (optional).

APPLICATION:

This keypad is constructed to survive in exposed, unsupervised, public environments, and military as Army, Navy, Air force. Their responsive key action ensures rapid, reliable and responsive data entry in tough, wet or hostile conditions. A hardened stainless steel front plate and polymer keys ensure the keyboard's resistance to hard use, abuse and vandalism. A water and impact resistant trackball and ideal solution for PC data entry in menu based 'point & click' application

- **Number of Keys:** 3
- **G.W.:** 1.00 kgs
- **Dimensions:** 185.0mm x 154.4mm x 36.0mm (L x W x H)

PRI-KYB-M185RTP-NKP-MDT-BLT

DESCRIPTION: 24 keys IP65 dynamic stand alone desktop vandal proof industrial & military keypad with industrial backlight, with sealed & ruggedized tough touchpad for fast and accurate cursor position, with industrial PCB with carbon-on-gold key switch technology with key stroke 1.50mm with extremely good tactile feeling for fast and accurate input without any noise, high quality durable Electroplate Titanium Black on the top stainless steel plate (optional).

APPLICATION

- keyboard with NVIS-compliant red adjustable backlighting, while NVIS backlighting makes this keyboard ideal for military, aviation or vehicle applications where night vision goggles are necessary.
- This keyboards is constructed to survive in exposed, unsupervised, public environments, and military as Army, Navy, Air force.
- Their responsive key action ensures rapid, reliable and responsive data entry in tough, wet or hostile conditions. A hardened stainless steel front plate and polymer keys ensure the keyboard's resistance to hard use, abuse and vandalism. A water and impact resistant trackball makes this keyboard the complete and ideal solution for PC data entry in menu based 'point & click' application.
